

# TRIMINATOR DRY

## PURE TRIM

proprietary cutting composite eliminates the need for lubricants, keeping your product pure and dry

## REMOVABLE TRIM BIN

food grade trim bin safely catches excess trim for future use

## RETRACTABLE WHEELS

roll for easy moving, retract for stable trimming

## AUTOMATIC TIMER

makes batch trimming easy, set the timer and come back when it's done.

## EASY PIVOT

pivot the drum for quick and easy operation

## WHY DRY?

**DRY** trimming has several advantages over wet trimming. The drying process locks in the plant's natural color and aroma resulting in finished products with a vibrant color and a powerful nose. In addition, when trimming dry you can manicure all year long, avoiding the post harvest rush.

- + **NATURAL COLOR** for a highly marketable finished product
- + **AROMA** is maintained for a strong product nose
- + **TRIM ANYTIME** to avoid the post harvest rush
